7) Choosing Your Competitive Edge

The Leader's Guide to Peak Performance... in Everything

For many of us, getting ahead means putting in longer hours, sacrificing time with our family and friends and persevering until we 'break through' to that next level of success. Ironically, those same sacrifices have driven employee burnout, corporate fatigue, and the skyrocketing costs of mental and physical health on the job.

In fact, research indicates that the very health practices we tend to push aside in the pursuit of 'more' are the same practices that drive today's peak performers and greatest leaders to succeed. Indulge yourself and your team in a research-backed, smirk-filled experience that debunks the idea that "struggle and stress" are part of success. Then make way for clearer, more consistent results that draw on health to give you a sharpened competitive edge.

KEY OUTCOMES & AUDIENCE IMPACT:

- Learn the performance benefits of exercise, healthy eating, sleep, and stress management on your cognitive and decision-making abilities.

8) The “Busy” Breakthrough

Work-Life Balance for Today’s Overachiever

For many of us “being busy and getting things done” is exactly where we feel most comfortable. On a good day this feels like high productivity, great time management and lots of creative thinking as we challenge ourselves to fit in *even more* — more goals, more accomplishments, more responsibilities. Until we find ourselves too busy to eat, too busy to sleep and too busy to tend to the areas of our life that *actually matter the most*.

Soon, busy turns to “burned out”, and productivity grinds to a halt. Deadlines get delayed and details get missed as we try to keep up with the pressure and unrealistic expectations brought on by that idyllic “busy thinking”.

Comedic, practical, and incredibly insightful, “The Busy Breakthrough” is a crowd favorite that debunks the myth of “work-life balance” and helps audiences recalibrate the illusion of “busy” into healthier, more manageable and increasingly sustainable practices for success.

KEY OUTCOMES & AUDIENCE IMPACT:

- Increase productivity, efficiency, and fulfillment by recognizing (and removing) the unnecessary stressors that may be slowing you down.
- Identify your biggest distractions and time wasters, and effectively prioritize your day to be truly focused and productive.
- Develop strategies to move forward with greater clarity, workday energy, and life balance.
- Accomplish more while doing less. Learn how to create a greater sense of success *and* stability (and by example, encourage your teams to do the same).

★ **THE “RECALIBRATOR”:** Teams, managers and performance-based professionals will benefit from the key insights and emerging trends that Health & Productivity Expert Michelle Cederberg presents during this paradigm-shifting keynote.
